3PL

From complexity. To control.

One software platform powering your logistics.

Boltrics

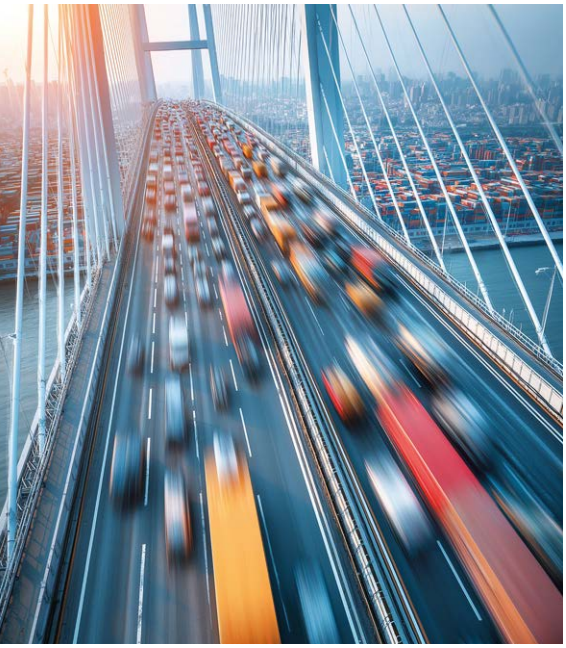

boltrics.com

The Logistics IT Solution.

Boltrics

The logistics sector is changing rapidly and requires technology that not only supports operations but also provides direction. Only with a solid, future-proof foundation can you maintain control, remain agile, and achieve sustainable growth.

Boltrics has its roots in the Dutch refrigeration and frozen food sector, where, in collaboration with Nekovri and leading logistics service providers, a solution was developed that truly meets real-world needs. Built for and by the business. What began as a sector-specific solution has evolved into a platform based on proven best practices for warehousing, transportation, and freight forwarding. In an industry under constant pressure from staff shortages, security requirements, and innovations such as AI, Boltrics offers a single integrated and modular platform for WMS, TMS, and FMS. With real-time insight, scalability, and flexibility, you lay a solid foundation to work more efficiently, adapt faster, and continue to make a difference for your customers.

Fixed time. Fixed price.

Transparency from the start: fixed scope, timeline, and price. No surprises. Just full control over your investment and schedule. Expand later.

Modular Platform.

Start with what you need and easily expand. One integrated solution for warehousing, transportation, and freight forwarding. One workflow. One platform..

Best Practice driven.

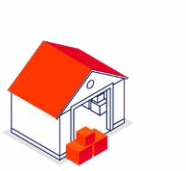

Built on best practices from over 400 logistics service providers. You automatically benefit from the latest features and are always up to date.

Microsoft fundament.

A full SaaS solution built on Microsoft Dynamics 365 Business Central: secure, scalable, and leveraging Microsoft's development capabilities.

Boltrics

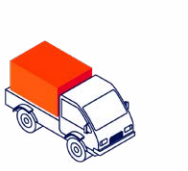

The Boltrics Platform.

- Road
- integrations
- Customs

and more...

One goal: go live successfully and quickly.

Fast Track: Live in 1 month

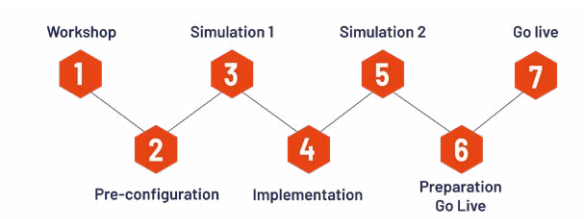

Go live quickly. Proven approach. Immediate value.

The Boltrics Fast Track Implementation is the fastest way to get started with the Boltrics platform. Within one month, you'll go live with a platform that supports your essential workflows, built on proven methods used daily by logistics service providers.

- Based on proven 3PL best practices
- Set up via the Boltrics Marketplace
- Optimization after implementation
- Training prior to implementation

Tailored Track: Live in 3 months

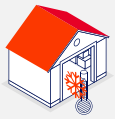

Go live with confidence. Tailored to your operations.

The Boltrics Tailored Track Implementation is designed for logistics service providers with more complex workflows. Within three months, you'll go live with a platform that aligns with the core of your operations, configured within a single industry-specific solution.

- Suitable for more complex 3PL processes
- Integrations possible during implementation
- Configuration within the Boltrics platform
- Training of key users throughout the process

From strategy to result with the Boltrics platform.

Go live faster.
Proven approaches and processes ensure a predictable implementation and a quick start.

Insights in margins and operations.
A single, integrated platform, real-time insights, and streamlined processes give you control over costs and performance.

Take control of your IT.
No custom development or complex modifications. Just a solution that works the way your operations work.

Scalable platform.
Grow your customer base, volumes, or services without having to redesign your IT landscape.

Why choose Boltrics.

- **Microsoft Dynamics 365 Business Central.**
  Trusted, secure, and scalable.
- **Tailored for logistics.**
  Built with and for logistics service providers.
- **Cloud-first.**
  Always up to date, without the hassle.
- **Community-driven.**
  Every innovation available to all customers.
- **Fixed time, fixed price.**
  A clear implementation, without surprises.

Future-proof your IT.
