

Boltrics

boltrics.com

A strong foundation. In just one month.

Boltrics Fast Track. Go live fast with proven workflows.

Logistics providers can’t afford to wait for IT.

Logistics providers are under pressure. Customers expect real-time visibility, higher service levels, and maximum flexibility. Meanwhile, labor shortages, rising costs, and growing complexity create new challenges.

Yet software implementations often take months. Lengthy analyses, extensive workshops, and complex configurations slow down the move to a modern IT environment. With Boltrics Fast Track, you take a different approach. Backed by over 15 years of logistics expertise and 400+ implementations, you go live within one month on a future-proof WMS, TMS, or FMS platform.

From kick-off. To go-live.

Fast Track is the quickest way to get started with the Boltrics platform.
Instead of redesigning processes, you start with preconfigured best practices used every day by logistics providers worldwide.

Step 1

Certification

Key users complete training and get familiar with Boltrics best practices.

Step 2

Scope Validation

The predefined scope is validated. Together, we identify the processes needed for go-live.

Step 3

Initialization & Training

The preconfigured solution is set up and used as the basis for training.

Step 4

Simulation & Go-Live

The setup is tested and goes live within one month. Expand further whenever you’re ready.

Boltrics

The Boltrics Platform. On a Fast Track.

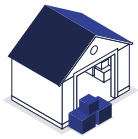

You're a logistics provider in warehousing, transport, and/or freight forwarding. And you've chosen a WMS, TMS, or FMS solution from the Boltrics Platform. Now choose the implementation approach that fits your business, based on your processes, ambitions, and desired pace.

Fast Track is the quickest route to a fully operational logistics solution. Start with proven 3PL best practices and build a solid foundation fast. After go-live, easily expand through the Boltrics Marketplace.

Fast Track is ideal if you want to:

- Go-live fast.
- Start with proven logistics processes.
- Expand step by step.
- Be operational within one month.

Need complex integrations or specific workflows from day one? Tailored Track is a better fit. This approach offers more flexibility to configure and optimize your logistics processes.

WMS
Warehouse Management

TMS
Transport Management

FMS
Freight Forwarding Management

Why choose Fast Track?

Live within one month.
No lengthy implementations. Be up and running on a proven platform in just 30 days.

Proven Best Practices.
Built on the knowledge of 450+ implementations for logistics service providers worldwide.

Fixed Time. Fixed Price.
No surprises down the road. Know exactly what you'll pay and when you'll go live.

Trained key users.
Your team is fully trained before go-live, ready to work independently from day one.

Optimize after go-live.
Start small, scale smart. Add modules through the Boltrics Marketplace as your operations grow.

Microsoft fundament.
Trusted, secure, and always up to date SaaS platform. Powered by Microsoft Dynamics 365 Business Central.

Fast Track vs. Tailored Track?

One platform, two implementation approaches, tailored to your business complexity and pace.

Fast Track	Tailored Track
Live within 1 month	Live within 3 months
Built on proven best practices	Configured for your core processes
Integrations after go-live (except standard packaged integrations)	Business-critical integrations during implementation
Focus on rapid adoption	Focus on process optimization
Expand standard setup after go-live	Expand configured setup after go-live
Fixed Time. Fixed Price.	Fixed Time. Fixed Price.

Why choose Boltrics.

- **Microsoft Dynamics 365 Business Central.**
  Trusted, secure, and scalable.
- **Tailored for logistics.**
  Built with and for logistics service providers.
- **Cloud-first.**
  Always up to date, without the hassle.
- **Community-driven.**
  Every innovation available to all customers.
- **Fixed time, fixed price.**
  A clear implementation, without surprises.

Future-proof your IT.
